## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 5/12/2003 has been entered.

### ***Response to Arguments***

2. Applicant's arguments, filed 5/12/2003, have been fully considered and reviewed by the examiner. Claims 1-5, 8, and 13-17 are pending.

The applicant has argued that the Oku reference does not teach the limitations of Claim 1 and that the Deith reference does not overcome the deficiencies of Oku. The examiner not persuaded by the applicant's arguments, as the arguments do not point out any specific deficiencies in the references singly or in the combination of references or how the combination is improper. Such an argument is insufficient to overcome the rejection. A convincing argument needs to specifically point out how the references are deficient or why the combination is improper. Furthermore, it is still the position of the examiner that there is motivation in the prior art to the combination of the Oku and Deith reference, which renders the claimed invention obvious, as set forth in the previous office action. Thus, the examiner is maintaining the use of the Oku and Deith references, as previously set forth.

Art Unit: 1762

***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-5, 8, and 13-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Oku et al. in view of WO 91/08179 by Deith ("Deith").

Oku et al. and Deith are applied here for the same reasons as given above and in paragraph 3 of the previous office action.

***Conclusion***

5. All claims are drawn to the same invention claimed in the application prior to the entry of the submission under 37 CFR 1.114 and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the application prior to entry under 37 CFR 1.114. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action after the filing of a request for continued examination and the submission under 37 CFR 1.114. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

Art Unit: 1762

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
